Methods — Waterfall, Agile

Tools

MS Project | Primavera P6 | SAP | Power BI | Advanced Excel | Visio | Jira | Confluence

Work Experience

Business Strategy Consultant, 180 Degrees Consulting Oct 2025 – Jan 2026 | United Kingdom

- Delivered executive dashboards and KPI frameworks to support leadership decision-making for a charity serving 10,000+ beneficiaries
- Structured delivery roadmap and identified operational risks, increasing visibility across programme milestones

Commercial Operations Analyst, Accenture Sep 2022 – Aug 2024 | India

- Led planning, cost, and performance governance across 3 programmes worth ~£14M, covering forecasting, baseline monitoring, and reporting
- Coordinated cross-functional teams across finance, delivery, and operations to maintain reporting accuracy, governance discipline, and programme visibility
- Managed budget vs actuals, forecast updates, invoicing, and receivables, increasing financial transparency by 36%
- Developed and maintained KPI dashboards and reporting packs in Power BI to support programme decision-making and executive reporting
- Coordinated baseline performance reviews, variance analysis, and governance activities across multi-team delivery environments

Senior Project Engineer, Rieco Industries Ltd Oct 2019 – Jul 2022 | India

- Owned planning, cost, and performance oversight across 40+ engineering projects valued up to £35M, covering planning, scheduling, budgeting, progress tracking, and reporting
- Developed and maintained project schedules using MS Project and Primavera P6, reducing scheduling conflicts by 33% and strengthening schedule adherence
- Monitored baselines, costs, risks, and progress performance to ensure alignment with scope, budget, and delivery milestones
- Led coordination across engineering, procurement, and site teams to drive delivery against baselines, resolve execution issues, and maintain schedule performance
- Managed client reporting, progress reviews, and control updates across domestic and international projects
